

Jnet Shop Floor Wiring Schematics (New installations)

NOTES:

1. For wiring in legacy installations see drg 03120.
2. Jnet wiring can use either the blue or brown cores in the CAT5 cabling. Legacy installations use the brown cores. Current installations use the blue cores.
3. For brown core use NJ04 (see drg 03139)
For blue cores use NJ21 (see drg 04185)
